An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Rashmi Raj on 9 March 2006.

The application has been amended as follows: in claim 12, both lines 10 and 11, before "flowing", --then— has been inserted.

The above amendment clarifies that the three flow steps are sequential.

The following changes to the drawings have been approved by the examiner: the informal numerals need to be replaced with formal numerals. In order to avoid abandonment of the application, applicant must make these above drawing changes.

The following is an examiner's statement of reasons for allowance: The prior art fails to show in the claimed combination, an axial flow path through a seat, then a radially outward flow, then flow through a retainer mounted on a flow divider as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
